Project Problem Statement Submission Form

Sec No-12	Team No-18	Project Title- Hotel Revenue Management Dashboard
Team Lead Roll Number	2520030012	Hotel Revenue Management Dashboard
Team Lead Name	Dharmika	Hotel Revenue Management Dashboard
Team Member Roll Number	2520030077	Hotel Revenue Management Dashboard
Team Member Name	Bindhu Madhavi	Hotel Revenue Management Dashboard

1. Abstract

(Summarize the project idea, problem background, and proposed solution. Not more than 250 words.)

This project is about a Hotel Revenue Management Dashboard. It helps hotel managers see important data like ADR, RevPAR, occupancy rate, and bookings in one place.

In hotels, prices and bookings change daily. So it is difficult to track everything manually. This dashboard shows all data using charts and graphs, making it easy to understand.

It also compares forecast (expected data) with actual data, so managers can see performance. The system shows booking sources like online apps, direct bookings, etc.

It also gives pricing suggestions based on demand and occupancy. Users can filter data by date and download reports. An admin panel is included to manage data.

This project helps hotels make better decisions, increase revenue, and save time.

2. Module Mapping

(Provide details of how modules are divided among team members.)

Module Name	Assigned Roll Number(s)	Signature
KPI Cards, ADR Chart, RevPAR Trend, Occupancy Gauge, Date Filter	2520030012	Dharmika
Forecast Display, Channel Breakdown, Pricing Suggest, Export Reports, Admin Panel	2520030077	Bindhu

3. Module Details

(Explain the responsibility of each student concerning their assigned module.)

1. **KPI Cards:** Show important values like ADR, RevPAR, occupancy.
2. **ADR Chart:** Shows daily room price trends.
3. **RevPAR Trend:** Shows revenue performance.
4. **Occupancy Gauge:** Shows how many rooms are filled.
5. **Forecast Display:** Shows expected vs actual data.
6. **Channel Breakdown:** Shows booking sources (online, direct, etc.).
7. **Pricing Suggest:** Suggests room prices based on demand.
8. **Export Reports:** Download reports.
9. **Date Filter:** Select data by date.
10. **Admin Panel:** Manage data and users.

4. Frameworks / Platforms / Software Used

(List the frameworks, libraries, platforms, or tools you plan to use.)

HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, npm, Postman (API Testing), MySQL (optional), REST APIs, Express.js, Axios, React Router, Context API / Redux, LocalStorage, Bootstrap / Tailwind CSS

Guide Name and Signature (remarks if any) _____
